PROFILE

A frontend developer with experience in creating successful websites and staying up to date with the latest trends and best practices in web development. My goal is to bring the best results possible for the company, as well as learning as much as possible to become the best web developer I can be, for myself and for the company.

EXPERIENCE

Website Developer at Hermes (Internship)

May 2017 – June 2017

Developed a full website for the company where you could login as a client or a worker, depending on the type of login the main page would be completely different. As a client you would be able to see the company's products, contacts, location, etc. As a worker you could access the database of the company and manage everything.

Ended the internship with a final grade of 18/20.

Website Manager at InfoRomba (Internship)

April 2016 – June 2016

I was tasked with managing the new website of the company, finding bugs and problems in the code of the website and improve it the best I could.

PROJECTS

Content Management System

Built with Html, CSS, JavaScript and React, where the user could manage the content as per their requirement and could also manage other users.

Multi-select Search

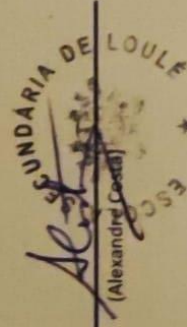

Built with Html, CSS, JavaScript and React, where the multi-select search would fetch data from an API based on the user input and allowed users to select multiple options from a dropdown list.

CERTIFICATE

Loulé Secondary School honourably certifies that ANDRÉ CLEMENTE GRADE participated in European Erasmus+ Project, Professional Training Learners Mobility, named "Europe Work Training Experiences, Loulé Students", with Portuguese National Agency Erasmus+, reference number 2016-1-PT01-KA102-022450, between 20TH MAY AND 13RD JUNE 2017 IN KRŠKO, SLOVENIA, in the company/school HERMES RAČUNALNIŠTVO IN POSLOVNE STORITVE D.O.O. PE KRŠKO ([HTTP://WWW.HERMES2.NET](http://www.hermes2.net))
